A versatile units' range with low running costs

The models of the GM R290 range are monoblock units characterized by compactness, suitable and accessible to anyone looking for a type of wall installation.

The refrigerant charge is low (<150g) and the refrigerant R290 has a low GWP index.

Suitable for small rooms, this range is composed by 2 lines: the MGM for medium temperatures (max 22m³ at Tc= +0°C, Tamb= +30°C) and the BGM for low temperatures (max 5m³ at Tc= -20°C, Tamb= +30°C).

It is possible to have the unit with air or water condensation (for water: plate heat exchanger and water solenoid valve).

This range of monoblocks, characterized by remarkable compactness, allows to optimize the useful space inside the cold room, guaranteeing excellent performance and reliability.

The robustness, simplicity of installation and extreme easiness of use represent the strong points of these units range, as well as guaranteeing high efficiency in heterogeneous working conditions.

The reciprocating hermetic compressor and the programmed automatic hot gas defrosting, with cycle frequency, make the GM R290 a stand-alone and reliable machine, without the need for recurring maintenance.

The condensation water elimination system is automatic and does not require external connections allowing a clean and autonomous operation thanks to the condensate water evaporation tray available in the standard configuration of the unit.

The electrical panel of the unit has an electronic control unit whose operating parameters are already programmed, it manages the GM R290 and allows the signalling of any anomalies.

Standard configuration

- › Hermetic compressor
- › Power supply 220-230/1N~/50
- › Air condensation
- › 100mm legs
- › Hermetic compressor
- › Ceiling installation for covered areas - air cooled condenser (capillary tube) Tmin 20°C - Tmax 45°C
- › Ceiling installation for covered areas - water cooled condenser (thermal expansion valve) Tmin 10°C - Tmax 48°C
- › Electronic control panel
- › Expansion through capillary tube
- › Liquid line filter
- › Door micro switch cable
- › Cable for door switch heater on low temperature units
- › Condensate water evaporation drip tray
- › Drain heater BT
- › Straddle mounting or through wall configuration
- › High and low pressure switches
- › Cables length 5m
- › Electronic controller Eliwell IWP750 with sealed contacts of relays
- › Serial output RS485
- › Atex power relays for compressors
- › Fans with thermalprotection
- › Max refrigerant charge 150g for circuit
- › Air or water condensation (plates condenser and water solenoid valve)
- › Hot gas defrost

Personalization options and accessories

Condensation options:

- › Water condensation

Power supply:

- › 220-230/1N~/60

Evaporator:

- › 100mm legs + Kit pan
- › Audible and visual alarm
- › Remote control panel for 2 units with alternating operation
